User (Non admin)

Screen

Display Image screen

When double click on image you open up the display image screen

Display image has following:
- Shows tag(edit/delete)
- Add new tag
- Add caption
- Manual slide show
- Date/time of image
- Search feature
-

Search screen

You can search based on:

- Pick tag type/value and add to list. When your done listing tag click on "search result" button to find any images.
- Pick valid date range to search for photos.
- After done searching you can add the result to album. And will display a text in blue indication album added.

NOTE: you can search only either on tag or date range but not both
